

NOTICE OF APPLICATION

Maritime Electric seeks approval for Changes to its General Rules and Regulations

In March 2025, in accordance with Order UE23-04, Maritime Electric filed an application seeking approval for Changes to its General Rules and Regulations. The General Rules and Regulations set out the terms and conditions under which Maritime Electric provides electricity service to its customers.

BACKGROUND

In Order UE23-04, the Commission directed Maritime Electric to complete a comprehensive review of its General Rules and Regulations. The review was to compare Maritime Electric's rules with those of other Canadian utilities and regulators, with particular attention to consumer safeguards not currently included in the rules.

Maritime Electric retained Utilis Consulting Inc. to complete a review of similar rules used by other Canadian utilities. Maritime Electric used the results of that review, together with its own internal review, to develop the proposed changes included in the application.

DETAILS

Maritime Electric is proposing a comprehensive update to its General Rules and Regulations. The proposed changes are intended to improve the organization and readability of the document and clarify the rights and responsibilities of Maritime Electric and its customers.

The changes address matters such as security deposits, billing and payment requirements, service connections and disconnections, line extensions and customer contributions, distributed energy resources, service interruptions and dispute resolution.

Maritime Electric is also seeking approval to update certain service fees, including service call, connection, seasonal reconnection and after-hours fees, and to introduce new rental rates for LED street lights and Smart City Micro-Sensor attachments.

The application does not propose a general increase to basic electricity rates.

WHERE TO SEE THE APPLICATION

The information contained in this notice is an overview only and is not comprehensive.

A complete copy of the Supplemental Budget Application and all exhibits are available on the Commission website (irac.pe.ca/electric) under Docket UE22005.

HOW TO COMMENT & ASK QUESTIONS

Members of the public are invited to ask questions or comment on this application. Questions to Maritime Electric can be submitted at the address below by October 9, 2026. Maritime Electric must provide response to questions by October 30, 2026.

Written comments can be submitted to the Commission at the address below. Comments must be received by **Friday, November 13, 2026**. All public comments will be posted on the Commission's website.
