

## Interrogatories of Commission Staff

**TO:** Maritime Electric Company, Limited  
**FROM:** Cheryl Bradley  
**DATE:** June 11, 2026  
**RE:** Energy Cost Adjustment Mechanism Rate Adjustment  
**DOCKET:** UE20606

---

The Island Regulatory and Appeals Commission (the “Commission”), in assessing the reasonableness of the Application requesting Approval for an Energy Cost Adjustment Mechanism Rate Adjustment (the “Application”), submitted by Maritime Electric Company, Limited (“Maritime Electric” or “MECL”), requests responses to the following interrogatories:

29. Regarding IR-11(d), MECL stated:  
*"In 2025, Maritime Electric credited approximately 37 million kWh of credits to net metering customers ... \$3.3 million have been shifted to non-net metering customers ... rate impact of approximately 1.2 per cent for all other customers."*
- a. Approximate the fixed costs avoided by net metering customers associated with energy produced and consumed by the customer in real time ie. Energy that is used by the customer and not exported to the system.
  - b. Is it reasonable that a net metering customer would not pay for fixed system costs for self-supplied energy, given that its self-supplied energy source would be inoperable without system supports provided through its connection to MECL's system?
30. Provide a Capacity Resource Adequacy Assessment table for the actual capacity sources and amounts for the years 2023, 2024 and 2025.

**The Commission requires responses to these interrogatories no later than 4:00 p.m. on June 18, 2026. Responses received after this date may result in delays in the Commission's reply.**

**Additional interrogatories may follow.**

A handwritten signature in blue ink that reads "Cheryl Bradley". The signature is written in a cursive, flowing style.
