Dear Ms. Francis:

**RE: Docket UE20742 - Interrogatories from Commission Expert**

---

The Prince Edward Island Regulatory and Appeals Commission (the "Commission"), in assessing the reasonableness of the 2024 Supplemental Capital Budget Request for On-Island Capacity for Security of Supply Project submitted by Maritime Electric Company, Limited ("Maritime Electric" or "MECL"), requests responses to the attached interrogatories from the Commission's expert Synapse Energy Economics, Inc. Maritime Electric responses to the interrogatories are to be filed with the Commission by Friday, May 16, 2025.

Maritime Electric's letter dated April 24, 2025 identified its concern regarding On-Island Capacity and the urgency to review and approve a capital expenditure deferral for up to \$12 million to complete upfront engineering work. The Commission intends to prioritize this file and a procedural letter will be provided in due course, however, be advised that the Commission is planning a technical session for the week of May 26, 2025. Please confirm Maritime Electric's availability for that time period.

Yours truly,

Cheryl Bradley, CPA
