Interrogatories of Commission Staff

TO: Prince Edward Island Energy Corporation

FROM: Cheryl Bradley

DATE: September 25, 2026

RE: Electricity Efficiency & Conservation Plan Funding and Demand Response

DOCKET: UE11401

The Island Regulatory and Appeals Commission (the “Commission”) will be opening a docket to examine the electricity efficiency and demand-side management programming being delivered by the Prince Edward Island Energy Corporation (“PEIEC”) and requests responses to the following interrogatories:

1. Confirmation of the anticipated filing date for the next Electricity Efficiency & Conservation Plan (“EE&C Plan”) and the period the proposed Plan is expected to cover.
2. An update on the development of the new Plan, including work completed to date and the remaining steps before filing.
3. A description of any electricity efficiency or demand-side management programs that:
 - have been discontinued or reduced since approval of the previous Plan;
 - continue to be offered following expiry of the Plan; or
 - are expected to be introduced before approval of the next Plan.
4. An explanation of how any changes in provincial or federal funding have affected the scope of electricity efficiency and demand-side management programming.
5. An update on each of the demand response initiatives contemplated under the previous EE&C Plan, including whether the initiative was implemented and, if not, why it was not implemented.
6. PEIEC's plans for demand response between now and the implementation of the next approved EE&C Plan, including any opportunities for customer curtailment, load control, energy storage or other measures capable of reducing peak electricity demand.
7. PEIEC's assessment of whether any interim demand response measures can reasonably be implemented before the next EE&C Plan is approved.

8. If PEIEC does not intend to pursue interim measures, an explanation as to why it considers it appropriate to defer further demand response initiatives until the next EE&C Plan.

The Commission requires responses to these interrogatories no later than 4:00 p.m. on October 23, 2026. Responses received after this date may result in delays in the Commission's reply.

Additional interrogatories may follow.
