Subject: Regarding Maritime Electrics Request for Recouping Costs
Date: Thursday, March 5, 2026 1:22:18 PM

Hello,

Im not sure if this is the right email to contact in regards to this, but as I have been closely following the news regarding Maritime Electric's request to recoup costs from Fiona with a permanent rate increase, I felt obligated to share my feelings.

Maritime Electric, a private company, and subsidiary of Fortis, requesting that islanders cover their costs for poor budgeting, and the risks involved with doing business is sickening. Islanders have not received any meaningful increase in reliability or quality of service in all my years of paying for their service. Let alone the fact that their parent company, Fortis, has reported a net positive for their revenue over the years since Fiona.

Public opinion of both IRAC, and Maritime Electric has been soured for a number of reasons over the last number of years. I hope that this issue with Maritime Electric can be an opportunity for the commission to regain the faith of islanders.

I hope that at least some of my feelings are mirrored by the commissioners of IRAC, and that this message is able to reach them.

Thank you,
Tristan Chatman
