---

Hello,

I am a resident of Charlottetown deeply concerned with Maritime Electric's proposed plan to purchase a 100 MW diesel combustion turbine.

We need to be transitioning to clean energy, not investing public dollars into a diesel plant that will spew thousands of tonnes of CO<sub>2</sub>-equivalent pollutants into the air.

There are other energy solutions that are cleaner and cheaper. We need to do better for the sake of future generations of islanders.

Thank you,

Al Kelly (they/them)
