Subject: IWMC application rate increase - Residential increase

Hello,

As part of the recent rate increase application. We are the landlord of 2 residential apartment buildings located in Charlottetown. We have done some looking into this and we have identified that we are being overbilled for what we have onsite. Please accept this email as our formal complaint about the rate increase request.

Currently, we are being charged for 60 sets, $\$213.00 \times 60 = \$12,780.00$ for 2023. The current count of bins onsite for both apartment buildings is 24 black bins and 16 green bins. So, the equivalent of 20 sets.

Sincerely,

ALECIA ADAMS
