Re: Review of Pricing Formula and Margin of
Petroleum Products

Attention: Chris

Dear Sir:

I am writing you to withdraw my request
to intervene at the above review.

The main reason is because of the fact
that IRAC decides who can intervene. I have
not checked your web site due to time restraints,
but I have concerns that this puts your
office in a conflict of interest position and
also I feel that PEI's Auditor General's
Office should be the one looking at this as
they have previously had to audit your office
previously. See attached.

Therefore I feel this issue will not
(over)

2

get a fair review and this would be a waste of my time.

In addition, I have a hearing disability which made your phone call very difficult for me to understand at times, as had at hearings.

Thank you for your assistance.

Sincerely,

Margaret Markley
