Grounds for Appeal of Resolution COS 22-127

Section 5.7 of the zoning bylaw asks council to consider the following points shown in italics...

1. Suitability for the site of the proposed development.

We and the residents of ward 6 feel strongly that the downtown Historic area, in a tourism dependent city is no place for a men's low threshold shelter.

2. Compatibility of proposed development with surrounding land use.

The surrounding area is currently historic core, tourism area, and residential. I purchased the Summerside Inn in 2017 after evaluating the business and the existing zoning which allowed a group home immediately adjacent my property. This has caused no problems. I would not have purchased it with a men's shelter 40 feet away.

3. Impacts from the development on pedestrian/vehicular access and safety, and on public safety generally.

The historic/tourism district has the highest walk score in Summerside. This facility with the anticipated gathering or worse loitering throughout the day will repel tourists, children and seniors.

4. Compatibility of the development with environmental, scenic and heritage resources.

This facility does not in any way fit in with the scenic or heritage resources in ward 6. I purchased this business based on a set of conditions which a men's low threshold shelter would irreparably damage. The neighbourhood will suffer, and my business along with other historic area businesses will suffer. It is unfair that such a change could be enacted years after I purchased the property and cause such long term harm.

5. I have consulted with my realtor Mike Poczynek to obtain a property appraisal and he informs me I can expect a reduction of up to 25% of the value of my property with a shelter next door.

A neighbour on Winter St has listed her property for sale. Two neighbours in a triplex across the street with young children are giving notice. A lady new to Summerside declined to rent an apartment at the corner of Winter and Central. The list goes on, and I will be happy to provide you names and addresses on request so that you may speak directly with them.
