Subject: gas stations

DP murphy couldn't get his way with one of the businesses five years ago and more or less threatened said business with what he would do. He thinks he can just go and build another gas station that is not needed in the community. What will happen is if he gets his way somebody will lose a business that has been there for several years. We support the existing ones now and in no way will Danny boy get any money from us. Cceritti's is the gas station that saved us during Fiona where my neighbor went and purchased over 400.00 worth of fuel and then purchased other items in the store. There was no limit on how much gas we could purchase and that is what I call service. Danny is like a whining little kid if he doesn't get his way. Remember Simmons arena. Three gas stations are plenty for that area. I am strongly against another one TKS Gene
