You don't often get email from [kristarogers01@gmail.com](mailto:kristarogers01@gmail.com). [Learn why this is important](#)

I am writing to express my objection to the application submitted by D.P Murphy Inc. for the proposed gas station in Borden-Carleton.

Having three stations within such close proximity has not once left me wishing we had a 4th.

Our community is well supported through Howatts and Cerettis, particularly. You would be hard pressed to enter either establishment without seeing tickets being sold, community posters advertising events, etc. These businesses have been with us and supported our schools and other community endeavors for generations. Each of these businesses offer our community something unique. Whether it be serving Maritime Electric personnel gas and coffee during a devastating storm, our community members during power outages, providing medication for sick children, etc.

We are well cared for as a community. Another gas station is not needed nor welcomed.

Thank you for your careful review and consideration of this matter.
