Subject: Gas Station Proposal

Hello,

I am an islander born and raised who now lives in Alberta. I frequent PEI to come back and see family every year. Family run businesses are PEI , they are our backbone. It's what makes PEI special and unique. Adding this gas station would be detrimental to our provinces landscape. If this station is approved , it shows that just because you have a deeper pocket you get what you want. What message does that send ??

I hope you will truly consider this and make the right decision for the community and the families who have worked so hard to build and sustain their businesses all these years.

Thank You !

Terri Gaglardi

Subject: Proposed Gas Station Borden

Hello,

I am an islander born and raised. Now living in Alberta , I frequently come to PEI to spend time with family and one of the best things about coming home is that some things never change. Family business are the back bone of Prince Edward Island and this still means something to a lot of people.

If we continue to let big business come

in and drive our family businesses out then that changes the landscape of what PEI is all about.

Bigger is not always better -

Hopefully the right decision is made to protect our small towns and the people who have been serving our communities for generations.

Thank you !
