Subject: Letter of objection

Good afternoon,

As a resident of Borden-Carleton I'd like to express my concern on the proposal that's being put forth for another gas station in the area.

I feel it's completely unnecessary and unwarranted. The area needs a lot of things but another gas station run by DP Murphy is not the answer. The three 'gas stations' we have are more than sufficient and provide the community with so much more than fuel. Could the ESSO/Tim's be renovated, made bigger, with more accessible parking and a car wash again-yes. Do we need another establishment entirely-no!

The last few years everyone has been pressing about 'community' and 'supporting local' and that's precisely what these "gas stations" have done for us. Opening in the middle of the night so people could run generators during Fiona, countless donations and sponsorships, always having necessities on hand, and more good community deeds than I could even list.

These people that run/operate these businesses do it with a sense of compassion and community and they will surely be put out of business by another large, unnecessary establishment moving into the community. One with no sense of what "community" really is, I might add

Amanda
