

Dear

I am writing to express my objection to the application submitted by D.P Murphy Inc. for the establishment of a fourth gas station in our small town of Borden-Carleton.

As a resident of this community, I firmly believe that the addition of another gas station is unnecessary and would not serve the best interests of our town. We already have three gas stations that sufficiently meet the needs of our residents and visitors.

Introducing another gas station would only result in an oversaturation of facilities, leading to increased traffic congestion and noise pollution. Borden-Carleton is known for its peaceful atmosphere, and this proposed development would disrupt the tranquility we cherish.

Lastly, the economic impact of this development should be considered. A fourth gas station could potentially harm existing businesses, leading to closures and job losses. This would have a negative impact on our local economy.

Thank you for your attention to this matter. I trust that you will take into account the objections raised by the residents of Borden-Carleton and make a thoughtful decision.

Yours sincerely,
Bobbi Boyko
