Subject: gas stations

good morning im writing you in regards to the proposal of the new gas station in borden Pei. first of all we dont need it there is two already one a little further up the road and also one in kinkora. there is no reason to have a third in borden if is only gonna take business away from the family owned ones that have bin so great to the community and surrounding communities for a number of years and hopefully many years to come Chad Ceretti and his late father have a great store with many great supplies they have saved me many trips to town for house hold supplies from plumbing to food even work clothes. if you guys allow this new gas station we could risk losing the one that has bin here for us for many years. in the end of the day its all about corporate greed dp murphy does not need the income and revenue from his new gas station chances are they will not provied quarter the goods and services that Cerettis has for a number of years. i believe that the thought of irac even considering this perposal is commplete bull shit go put a corner store in bedeqe or something some where someone actually needs and wants one...
