Subject: Borden gas station application

Hello,

This letter is to write and express concern for the development of a new gas station in Borden-Carleton. There are three existing gas stations in the area, two of which are like community centres for the town. They are long standing businesses that have supported the people in this community for a long time. Opening another one would risk these families and their generational companies going out of business. There is lots of room for new business in this area, but serving gas is not one of them. I worked at Howatts Shell as a kid in high school and my family has used Cerettis as a frequent stop for everything from hardware to meat to groceries. Jeopardizing these businesses would be a poor decision by the government.

Thanks for listening to the community,
Jessica Corkum-Gorrill
