**Subject:** Letter of Objection for DP Murphy Gas Station

It has been brought to my family and communities attention that D.P. Murphy has put forward an application to add a gas station to the area of Borden- Carleton.

We absolutely hope that attention is brought to this matter. Our community does not need a 4th gas station in such a small vicinity.

Two out of three of our gas stations are multi generational and have worked VERY hard for the business they can bring in to feed their families. Opening a fourth is out of greed. Not necessity.

The summer tourist months are the bread and butter for our local businesses. Wintertime we all support them as often as we can, but with the prices of everything due to inflation, there is barely enough business to keep them all a float during winter months.

If D.P. Murphy would like to join our community... why not a business that is needed? How about a Wendy's Express Restaurant? Give the community an option for a restaurant we very much lack, and keep our truckers fed as they haul 24/7. Tourist season would see them a nice bump in business. But to double down on our gas stations is very much a step in the wrong direction for any community support.

They will always mean the most to us. All the times we were in need for something to eat, a piece of Hardware we couldn't access at any other store because it was a weekend, Maritime Electric being able to full up with the gas station running on generator and opening for them to keep them going during Fiona.

It takes a lot of heart to build a community like ours. I hope you take this into consideration.
