To whom this may concern,

I can see there will be plenty of emails regarding this same issue and I hope you think of it as an 'issue' as well. My family and I have lived in albany for over 4 years now and very much rely on cerittis grocery because not only is it a convenience store but it is also a hardware store and the owners have not once but twice opened the store for us in the middle of a storm so we could get some hardware to fix up what we needed until the morning. Another gas station in the area is definitely not needed . There is enough in the area now and we need to keep family business around as well. If this was to be approved it would not only drive our local business down but it would hurt the community significantly.

I am up for a wendys/tims location but definitely not a gas station. Does he run a gas station any where else in the island? I don't think so , if he wants one maybe find another location that needs 1 not where there is 3 currently thriving .

Thanks

Kayla Smith
