Subject: Objection to Build Gas Station in Borden - Carleton

Dear Mr. MacEwen

This letter is to object the construction of DP Murphy Retail outlet and Gas Station.

I couldn't agree more with Chad Ceretti & Chad & Nick Howatt. Our small community was founded on family based outlets. The help that those 2 small businesses have helped through the community is based on trust and is family orientated. With a small population we are we do not need big heartless corporations' like DP Murphy that only think of their bottom line. Not the help that they can bring to the community. Last year during Fiona, Cerettis Grocery & Hardware Store was one of the rare places on the Island where you could get fuel and food. He even went as far as giving his own private number to let people know that he could help the community and other communities. The loss of our grocery stores in a small community like ours would devastate and disrupt the lives of many people in this community and surrounding communities. We have enough Gas Stations In our area We Do Not Need Anymore. These Businesses have been here for Generations with each generation helping the community in their own way and these are businesses that we can not lose. When is it going to stop that big Corporations try to take over small businesses and destroy the spirit of small communities.

Yours Truly
Mario Henry CD
