

No. UW26/06

File Copy

Permit

Issued Pursuant to Section 5 of the *Water and Sewerage Act*

Utility

Borden-Carleton
Water and Sewage Utility

Date Application Filed

July 31, 2026

Engineer

WSP Canada Inc.

Project Description

This project involves the removal of sludge from the first cell of Borden's wastewater treatment plant. Sludge will be removed via a dredge, screened (3/4") and then pumped to geotube bags for dewatering. Part of this project will include the construction of the dewatering pad which will be built with a Tensar geogrid, select borrow, geomembrane liner, geotextile and drainage gravel. As well there will be the appropriate erosion control measures and any reinstatement needed upon completion of the project.

Cost Estimate

\$1,028,587.00

IRAC Approval

September 10, 2026

Environment Approval

Permit #: P2026-31
August 26, 2026

Conditions of Permit

1. Total water & sewer project costs, including inspection and engineering, to be funded in accordance with the application received July 31, 2026.
2. Project to be awarded via public tendering (minimum of three bidders).
3. Easement(s) to be obtained where main(s) cross(es) private property (if applicable).
4. Certificate of inspection by design engineer, as-built plans and detailed final contract costs to be filed with the Commission, when completed.
5. This Permit expires if project not completed within twelve (12) months of the Permit issuance date.

This Permit, when signed below, authorizes the Applicant to proceed with the project described above subject to the conditions contained herein. Any amendments to the scope of the project without prior approval by the Commission may result in the revocation of this approval.

Issued at Charlottetown, September 11, 2026
